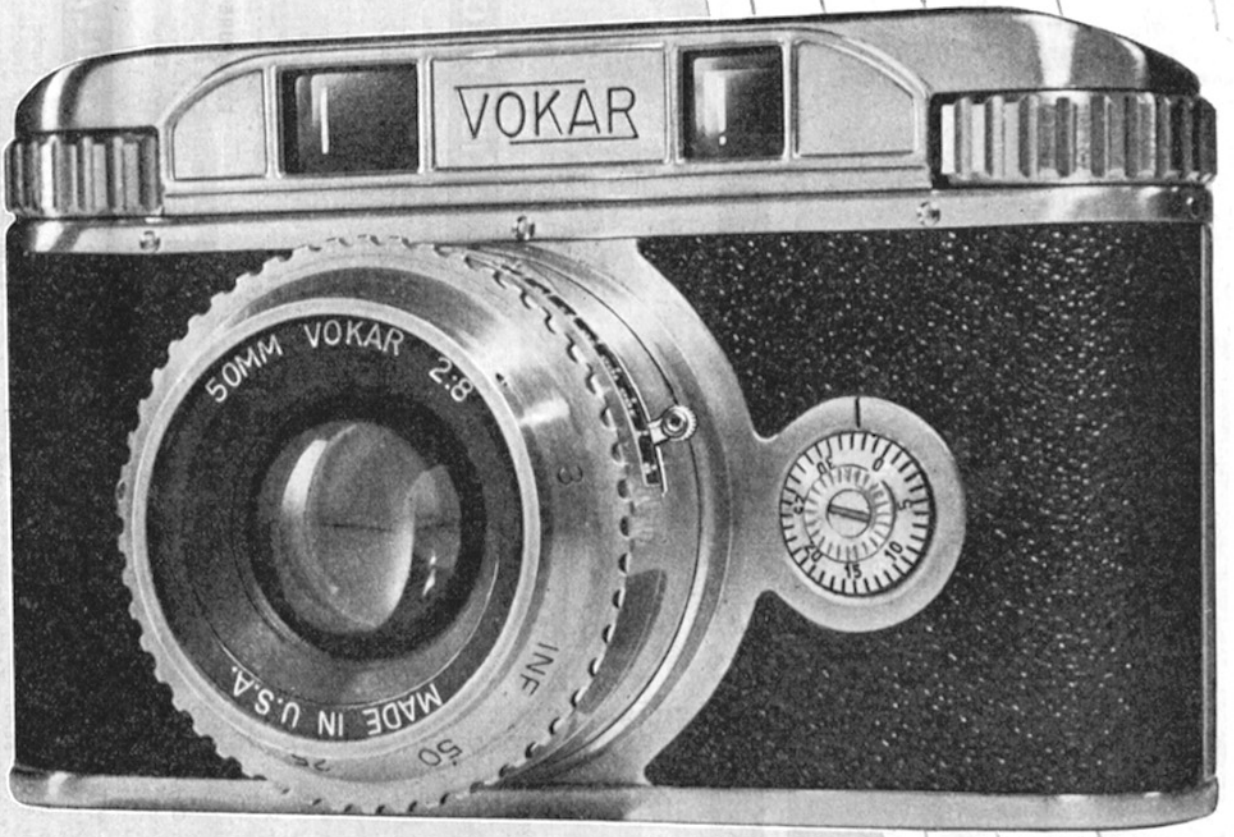
Supreme

VOKAR I

This new 35mm camera gives free rein to your skill and ingenuity. Capturing sparkling detail under difficult conditions, it freezes action with a masterful touch. Combining the feel and balance of expensive cameras, the Vokar I offers exciting evidence as to how modern engineering and production are translating war-time discoveries into finer products at lower prices. The following features mean finer pictures for you:

- Lens coated for finer pictures.
- f 2.8 anastigmat lens fully corrected for color.
- Combination range and view finder coupled to lens.
- Automatic film advance and shutter cocking—prevents double exposure.
- Convenient shutter release.
- All controls and adjustments visible from top of camera.
- Non-corrosive all metal construction.
- Uses standard 35mm load, full size double frame picture.
- Has shutter speed range from 1 second to 1/300th second.

Actual Size—Dimensions 5½" x 3¼"



Only $76.70 plus tax less carrying case.
